EFF: No Privacy Opt-Out Required or Yahoo Contacts Go Social

Posted by [kai](#) 2 days ago (<http://feeds.digg.com>)

Vote

In another blow to privacy, Yahoo plans to move its Yahoo Mail users' contacts into a social network of friends who will receive your Yahoo! Updates. Like Google Buzz's ill-fated launch using Gmail contacts, Yahoo! wants to jump start its social networking plans with the hundreds of millions of people who already use its email and messenger...

Die Schwachstelle vor der Tastatur

Posted by [kai](#) 4 days ago (<http://rss.feedsportal.com>)

Vote

Die größte Schwäche im Sicherheitssystem PC sitzt immer noch vor der Tastatur: Jeder dritte Deutsche gibt seine privaten Passwörter für PC, Internet und Co. an andere weiter. Ostdeutsche sind dabei etwas misstrauischer als Westdeutsche.

The Dark Side of Phone Apps

Posted by [kai](#) 4 days ago (<http://feeds.digg.com>)

Vote

Apps stores now offer more than 250,000 applications such as games and financial tools. The apps have been a key selling point for devices like Apple's iPhone. But concerns are growing among security researchers and government officials that efforts to keep out malicious software aren't keeping up with the apps craze...

How Android, Chrome and iPad are shielding us from malware

Vote | Posted by [kai](#) 4 days ago (<http://feeds.digg.com>)

Modern operating systems designed for the Web age—like the iPhone OS, Android, and Google's upcoming Chrome OS—were built from the ground up with security in mind.

Texas Congressmen Call for EMP's on the Border

Vote | Posted by [kai](#) 5 days ago (<http://feeds.digg.com>)

Republican Michael McCaul and Democrat Henry Cuellar want the border patrol to use portable EMP emitters to disable cars, boats or a host of other electronic items. A suitcase-sized EMP could thwart smugglers trying to drive illegal drugs or immigrants into the United States, the lawmakers say.

Facebook's tweaks of privacy settings are a big improvement

Vote | Posted by [kai](#) 5 days ago (<http://feeds.digg.com>)

I've been digging into the new privacy settings Facebook is rolling out to address the issues. The basic promise is that you can control a swath of privacy settings with a single click, though you can fine-tune. Facebook also reduced the info that can be seen by anyone on the Internet.

Hintergrund: Online-Dienste nach Mozilla-Art

Vote | Posted by [kai](#) 6 days ago (<http://rss.feedsportal.com>)

In den letzten Jahren haben wir uns daran gewöhnt, für nützliche Online-Dienste unsere Seele in Form von intimsten Daten zu verkaufen. Doch jetzt kommt das Mozilla-Team und stellt mit Firefox Sync eine Synchronisierungsplattform vor, die technisch sicherstellt, dass der Server-Betreiber keinen Zugang zu meinen Daten hat.
